

CLEVELAND HOPKINS - CONCOURSE "D"

Cleveland, Ohio

Project Description

The Albert M. Higley Co. served as the concrete and general trades contractor for the Cleveland Hopkins International Airport Concourse "D" project which included an interconnecting 730' underground tunnel to the existing terminal building. The 2-story concourse included 12 jet bridges, 4 fingers for turbo prop airplanes, and an 80' tall control tower.
