

UNIVERSITY SCHOOL

Hunting Valley, Ohio

Project Description

The Albert M. Higley Co. served as both General Contractor and Construction Manager at Risk for University School's upper campus master plan projects. The Phase 1 new Academic and Science Wing project included a 52,000 SF addition housing 25 classrooms for History, Math, English, and Foreign Languages, while the lower floor contains classroom-lab suites for Physics, Biology, and Chemistry, as well as a three-room Environmental Science Suite and a Special Projects Lab.

The second phase included a new entry and Arts Center with a long porch and dramatically tall lobby that doubles as an art gallery and school showcase.

The project received LEED® Silver Certification.
