

## CASE WESTERN RESERVE UNIVERSITY, FRIBLEY COMMONS DINING HALL CLEVELAND, OHIO

### PROJECT DESCRIPTION

AMHigley served as Construction Manager for CWRU's Fribley Dining Hall renovation. The interior and exterior renovation and expansion provides more study and dining space for the student center. As one of the main dining halls on campus, Fribley Hall serves approximately half of the 2,600 students enrolled on the meal plan. AMHigley enhanced the building in line with current CWRU Facility Standards and the programmatic requirements for a 21st-century university food service experience. Renovated areas included the main dining hall, kitchen, grab-and-go food service areas, study rooms, conference rooms, administrative offices, mechanical rooms, and an Amazon locker/mailroom.
